**" THE BEST BBQ EAST OF TEXAS "**

(If you're a vegetarian, get yer ass back to California!)

When you open this menu it will tell you everything we've got. It's got the Judge's favorites, if it aint in here then he hates it! We make mistakes & aint always rite, but its our damn place, so we can do whatever the hell we want. Also this is a fun place for happy people so in other words don't make me miserable with your negative crap! I hope you enjoy your meal, it may be spicy but you've been warned so don't try to bring the damn thing back. My dogs are already to damn fat since I opened this restaurant.
